CRITERIOS

Este Libro de Ruta ha sido confeccionado en Febrero y verificado en Marzo.

Cualquier modificación será publicada mediante complemento, sin que la organización sea responsable de eventuales variaciones en la señalización.

Se ha puesto especial atención para facilitar su uso e interpretación, y prescindir de información considerada superficial a criterio del organizador.

Sólo se hacen constar los cruces necesarios, junto con otras informaciones de interés (gasolineras, hitos kilométricos de verificación de recorrido, etc.).

Agradeceremos todas las sugerencias que nos permitan mejorarlo.

PROCEDIMIENTO DE SEGURIDAD

Cuando haya un cartel SOS de color rojo, es OBLIGATORIO detenerse y prestar asistencia a la tripulación que necesita ayuda.

Usted es responsable de ayudar a los accidentados y de asegurarse de que los servicios de seguridad se movilizan lo más rápido posible.

El siguiente vehículo en llegar a la escena del accidente deberá informar al siguiente punto de radio con el máximo de detalles posibles.

Los siguientes vehículos que lleguen a la zona del accidente deberán detenerse y dejar la carretera despejada para dejar paso a los vehículos de emergencia.

Todos los concursantes que se detengan en un tramo deberán colocar el triángulo rojo por lo menos 50 m antes del lugar incluso si el coche no está en la calzada.

Todos los concursantes que se retiren del rally tienen la obligación de entregar su carnet de ruta en el punto de control más cercano lo antes posible o bien al vehículo escoba.

RALLYSPRINT DE NUENO 2023

CALIBRACIÓN

RALLYSPRINT DE NUENO 2023

CALIBRACIÓN

Este Libro de Ruta se ha realizado durante el mes de Febrero y revisado en Marzo.

El aparato usado para calibrar es BLUNIK TRIP ORG, con un vehículo de tracción delantera, con doble sonda en la rueda trasera izquierda.

En el tramo de calibración se ha circulado por la parte derecha del carril de la derecha.

En los tramos cronometrados se ha circulado por el eje del carril de la derecha y se ha tenido mucha atención en las medidas, pero en carretera de enlace pueden haber variaciones por el hecho del tráfico cotidiano encontrado durante la medición y que también se encontrarán durante el rally.
